

## FEATURES

- Microcontroller based
- Analog and Pulse input
- High accuracy
- Programmable range
- Alphanumeric back-lit LCD
- Unit and Rate selection
- Built-in square root extraction facility
- Two level password protection
- Full digital calibration via keyboard
- Optional RS232 or RS485 serial communication interface
- Optional Isolated Re-transmission output proportional to flow

Flow Indicator Totaliser FTX55P is compact and easy to use, designed for monitoring the continuous flow rate and total flow. The flow rate along with engineering units is displayed on the upper line of LCD display and the totalised flow is displayed on 8 digits on the second line. The microcontroller based design makes it more flexible and powerful compared to conventional flow totaliser. The unit is suitable for use with any flow transmitter giving pulse or analog current output. The display has floating decimal point position, which is programmable from the front panel. The unit has inbuilt relay outputs for alarm or control application.

## SPECIFICATIONS:

Input	4 – 20mA / 1- 5V or 24V pulse (10KHz max.)
Power supply	90 – 265V AC +/-10%, 50 Hz, 1 Ph
Measuring range	Field selectable
Display	<ul style="list-style-type: none"> <li>▪ 2 line × 16 character backlit LCD display</li> <li>▪ 5 digit with units for flow rate indication</li> <li>▪ 8 digit for totalisation</li> <li>▪ 4 individual discrete LEDs</li> </ul>
Flow rate & unit	Flow rate: /sec, /min, /hr, (programmable) Units: cubic-meter, liter, gallon, etc. (programmable)
Accuracy	+/- 0.1% of Span, +/- 1 digit
Alarm Hysteresis	Adjustable from keyboard
Resolution	Programmable from front panel
Output	<ul style="list-style-type: none"> <li>▪ 2 relays (5A/230V AC resistive max.)</li> <li>▪ 24 V DC, 30 mA field power supply</li> <li>▪ Optional 4 – 20 mA retransmission output</li> </ul>
Communications	RS232 or RS485 serial communications port (Optional)
Square root extraction	Built-in (selectable)

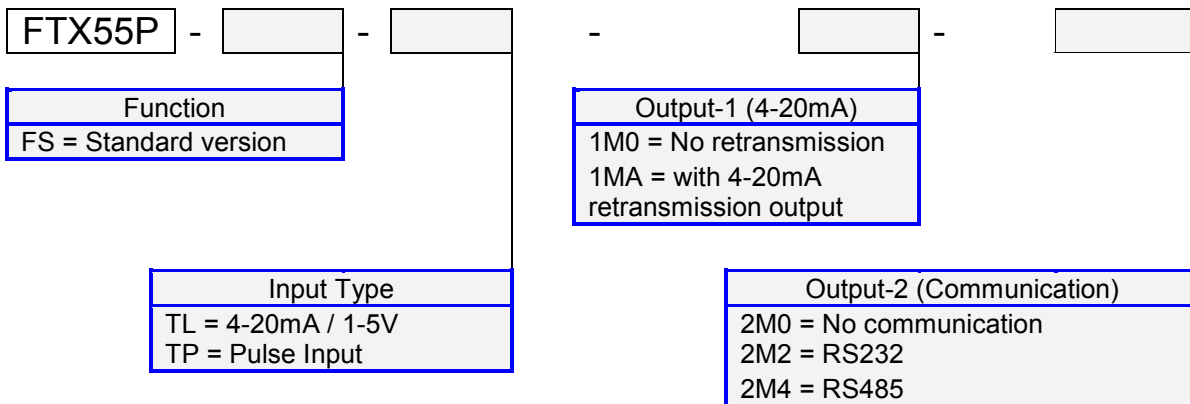

**contd. specifications:**

<b>ENVIRONMENT</b>	
Operating temperature	0 to 50 Deg.C
Operating humidity	5 to 95% RH non-condensing
Storage temperature	-10 to 70 Deg.C
<b>ENCLOSURE</b>	
Enclosure	Flame retardant ABS
Mounting accessories	Flush on panel
External dimensions	96(W) × 96(H) × 125(Depth behind panel) mm
Panel cutout	92 mm × 92 mm
Gross Weight	450 gms (approx.)

**EXTERNAL DIMENSIONS (mm):**

**ORDERING CODE:**

**SAMPLE CODE ORDER:**  
**FTX55P – FS – TL – 1MA – 2M0**  
 Standard, 4-20mA input, with 4-20mA retransmission output, without communication option
